

K-tronik is your High-Level IT & Engineering personnel service provider

We support you on site with our technical experts and take on your outsourcing projects in our development facilities. In order to react quickly to changing conditions and remain fast and flexible on the market, K-tronik supports you with a variety of experts in the case of temporary personnel bottlenecks, project peaks or a lack of specific technical know-how.

K-tronik GmbH

passion for technology

Your project success is our mission!

With over 700 successfully staffed & managed projects in software & hardware development, our account managers will find the right experts for you - from a professional as well as from a personal point of view. We trust following process in order to lead your project to success.

Precise requirements analysis

We listen carefully and understand the needs and demands of your development projects.

1

Optimized recruiting

Our account managers have the necessary technical understanding as well as the interpersonal competence to provide you with the perfect candidates in a short period of time.

2

Individual contract conclusion

We offer you the suitable contractual design for your project such as consulting, contract for work or service, employer leasing contract as well as agile contractual frameworks.

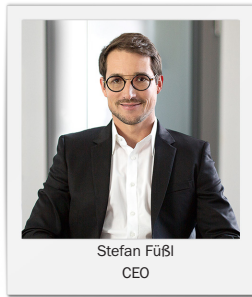

3

360° Support

Our account manager is your single point of contact for all organizational and commercial issues. We take care that our engineers work 100% focused on your project, from a tailored onboarding process, project-related training measures and regular feedback meetings, to personal assistance such as finding accommodation or dealing with authorities.

REFERENCES

"For me, K-tronik is a reliable partner to quickly bridge staff shortages with qualified personnel."

Michael Hall | Director Software Test Lab
Marquardt GmbH

"K-tronik provided us with an absolute expert during the development of a prototype in the field of electromagnetic tracking. The consultant was the perfect fit for the complex project requirements. K-tronik is a high-level personnel service provider that acts pragmatically, professionally and in a spirit of partnership"

Norman Plassky | Director Instruments
Brainlab AG

„K-tronik has proven during several on-site projects in the field of movement control, that they can independently develop, test and integrate solutions into products.“
